TOWN SPORTS INTERNATIONAL HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands except share and per share data)

(Unaudited)

1. Basis of Presentation

As of September 30, 2013, Town Sports International Holdings, Inc. (the “Company” or “TSI Holdings”), through its wholly-owned subsidiary, Town Sports International, LLC (“TSI, LLC”), operated 162 fitness clubs (“clubs”), comprised of 108 clubs in the New York metropolitan market under the “New York Sports Clubs” brand name, 29 clubs in the Boston market under the “Boston Sports Clubs” brand name, 16 clubs (two of which are partly-owned) in the Washington, D.C. market under the “Washington Sports Clubs” brand name, six clubs in the Philadelphia market under the “Philadelphia Sports Clubs” brand name and three clubs in Switzerland. As of September 30, 2013, the 162 fitness club count includes one club that has remained temporarily closed due to Hurricane Sandy. The Company’s operating segments are New York Sports Clubs, Boston Sports Clubs, Philadelphia Sports Clubs, Washington Sports Clubs and Swiss Sports Clubs. The Company has determined that its operating segments have similar economic characteristics and meet the criteria which permit them to be aggregated into one reportable segment.

The condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). The condensed consolidated financial statements should be read in conjunction with the Company’s December 31, 2012 consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. The year-end condensed consolidated balance sheet data included within this Form 10-Q was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (“US GAAP”). Certain information and footnote disclosures that are normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to SEC rules and regulations. The information reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the interim periods set forth herein. The results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results for the entire year ending December 31, 2013.

Change in Estimated Average Membership Life

The Company tracks the estimated average membership life of restricted members separately from unrestricted members. The restricted membership base currently includes student memberships introduced in April 2010, teacher memberships introduced in April 2011 and first responder memberships introduced as a one-time promotional offer in September 2011.

Joining fees and related direct and incremental expenses of membership acquisition, which include sales commissions, bonuses and related taxes and benefits, which are direct and incremental costs related to the sale of new memberships, are currently deferred and recognized, on a straight-line basis, in operations over the estimated average membership life. As of July 1, 2013, the estimated average membership life of an unrestricted member and a restricted member is 23 months and 28 months, respectively. The Company monitors factors that might affect the estimated average membership life including retention trends, attrition trends, membership sales volumes, membership composition, competition, and general economic conditions, and adjusts the estimate on a quarterly basis. The table below summarizes the estimated average membership life of restricted members and unrestricted members that were in effect for each quarter presented.

Table of Contents

Period	Estimated Average Membership Life of an Unrestricted Member		Estimated Average Membership Life of a Restricted Member	
	2013	2012	2013	2012
Three months ended March 31	25 months	28 months	27 months	25 months
Three months ended June 30	24 months	28 months	28 months	27 months
Three months ended September 30	23 months	28 months	28 months	28 months
Three months ended December 31	—	27 months	—	27 months

If the estimated average membership life for unrestricted members had remained at 24 months for the three months ended September 30, 2013, the impact would have been a decrease in revenue and net income of approximately \$294 and \$34, respectively.

2. Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (“FASB”) issued updated guidance on the presentation of unrecognized tax benefits when a net operating loss carry-forward, a similar tax loss, or a tax credit carry-forward exists. The update clarifies that an unrecognized tax benefit should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carry-forward, a similar tax loss, or a tax credit carry-forward. In situations where the tax benefit is not available at the reporting date under the governing tax law or if the entity does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit should be presented as a liability and not combined with deferred tax assets. The updated guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments are to be applied to all unrecognized tax benefits that exist as of the effective date and may be applied retrospectively to each prior reporting period presented. While early adoption is permitted, the Company expects to adopt the updated guidance on January 1, 2014. The adoption of this guidance is not expected to have a material impact on the Company’s financial statements.

In July 2013, the FASB issued updated guidance permitting the Federal Funds Effective Swap Rate (or Overnight Index Swap Rate) to be used as a U.S. benchmark interest rate for hedge accounting purposes, in addition to the U.S. government rate and LIBOR. Prior to the amendment, only U.S. Treasury and the LIBOR swap rates were considered benchmark interest rates. Including the Federal Funds Effective Swap Rate as an acceptable U.S. benchmark interest rate in addition to U.S. Treasury and LIBOR rates provides a more comprehensive spectrum of interest rates to be utilized as the designated benchmark interest rate risk component under the hedge accounting guidance. The updated guidance is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The adoption of this guidance is not expected to have a material impact on the Company’s financial statements.

3. Long-Term Debt

	September 30, 2013	December 31, 2012
2011 Term Loan Facility outstanding principal balance	\$ 315,743	\$ 315,743
Less: Unamortized discount	(4,687)	(5,404)
Less: Current portion due within one year	(40,500)	(15,787)
Long-term portion	<u>\$ 270,556</u>	<u>\$ 294,552</u>

2011 Senior Credit Facility

On May 11, 2011, TSI, LLC entered into a \$350,000 senior secured credit facility (“2011 Senior Credit Facility”). The 2011 Senior Credit Facility consisted of a \$300,000 term loan facility (“2011 Term Loan Facility”) and a \$50,000 revolving loan facility (“2011 Revolving Loan Facility”). The 2011 Term Loan Facility was issued at an original issue discount (“OID”) of 1.0% or \$3,000. The OID was recorded as a contra-liability to long-term debt on the accompanying condensed consolidated balance sheet and is being amortized as interest expense using the effective interest method. On May 11, 2011, debt issuance costs related to the 2011 Senior Credit Facility were \$8,065, of which \$7,288 are being amortized as interest expense, and are included in other assets in the accompanying condensed consolidated balance sheets. The proceeds from the 2011 Term Loan Facility were used to pay off amounts outstanding under the Company’s previously outstanding long-term debt facility, to pay the redemption price for all of the Company’s outstanding 11% senior discount notes due in 2014, and to pay related fees and expenses. None of the revolving facility was drawn upon as of the closing date on May 11, 2011, but

Table of Contents

loans under the 2011 Revolving Loan Facility may be drawn from time to time pursuant to the terms of the 2011 Senior Credit Facility. The 2011 Term Loan Facility matures on May 11, 2018, and the 2011 Revolving Loan Facility matures on May 11, 2016. The borrowings under the 2011 Senior Credit Facility are guaranteed and secured by assets and pledges of capital stock by the Company, TSI, LLC and the wholly-owned domestic subsidiaries of TSI, LLC.

On August 22, 2012, TSI, LLC entered into a First Amendment (the “First Amendment”) to the 2011 Senior Credit Facility. The First Amendment reduced the then-current interest rates on the 2011 Term Loan Facility by 125 basis points by reducing the applicable margin on the initial term loans from 4.50% to 3.50% for base rate loans and from 5.50% to 4.50% for Eurodollar loans and reduced the interest rate floor on the initial term loans from 2.50% to 2.25% for base rate loans and from 1.50% to 1.25% for Eurodollar loans. The First Amendment also converted the existing voluntary prepayment penalty provision from a “101 hard call” provision (which requires the payment of a 1.00% fee on the amount of any term loans that are voluntarily prepaid), originally scheduled to end in May 2013, to a “101 soft call” provision (which requires the payment of a 1.00% fee on the amount of any term loans repaid in connection with a refinancing or repricing transaction) that ended in August 2013, and was subsequently extended to November 14, 2013 by a second amendment on November 14, 2012. All other principal provisions, including maturity and covenants under the Company’s existing 2011 Senior Credit Facility remained unchanged in all material respects. The First Amendment was subject to the consent of term loan lenders. Non-consenting term loan lenders with term loan principal outstanding totaling \$13,796 were replaced with replacement term loan lenders in order to execute the First Amendment. In connection with the pay off of non-consenting term loan lenders, during the three months ended September 30, 2012, the Company recorded a loss on extinguishment of debt of \$464 consisting of the write-offs of the related portions of unamortized debt issuance costs and OID of \$260 and \$204, respectively. In addition, the Company recorded additional debt discount of \$2,707 related to a 1.00% amendment fee paid to consenting lenders and recognized additional interest expense totaling \$1,390 related primarily to bank and legal related fees paid to third parties to execute the First Amendment.

Subsequent to the effective date of the First Amendment, on August 28, 2012, the Company made a voluntary prepayment of \$15,000 on the 2011 Term Loan Facility. In connection with this voluntary prepayment, during the three months ended September 30, 2012, the Company recorded loss on extinguishment of debt of \$546, consisting of the write-offs of the related portions of unamortized debt issuance costs and debt discount of \$269 and \$277, respectively.

On November 14, 2012, TSI, LLC entered into a Second Amendment (the “Second Amendment”) to the 2011 Senior Credit Facility. Under the Second Amendment, TSI, LLC borrowed an additional \$60,000 incremental term loan issued at an OID of 0.50% or \$300, bringing the total outstanding borrowings under the 2011 Term Loan Facility to \$315,743. The \$300 OID was recorded as a contra-liability to long-term debt on the accompanying consolidated balance sheet and is being amortized as interest expense using the effective interest method. The new borrowings were used, together with cash on hand, to pay a special cash dividend to the Company’s stockholders, including an equivalent cash bonus payment to certain option holders, on December 11, 2012. In addition, the Second Amendment provides for a waiver of any prepayment required to be paid using the Company’s excess cash flow for the period ended December 31, 2012, amends the restricted payments covenant to permit the payment of the dividend and cash bonus payments and permits adjustments to the Company’s calculation of consolidated EBITDA with respect to the cash bonus payment and with respect to fees and expenses associated with certain permitted transactions. In connection with the execution of the Second Amendment, during the three months ended December 31, 2012, the Company recorded additional debt discount of \$639 related to a 0.25% amendment fee, debt issuance costs of \$125 and additional interest expense totaling \$1,569 related primarily to bank, arrangement and legal fees paid to third parties.

As of September 30, 2013, the 2011 Term Loan Facility has a gross principal balance of \$315,743 and a balance of \$311,056, net of unamortized debt discount of \$4,687 which is comprised of the original issue discounts from the original debt issuance date of May 11, 2011 and the additional debt discounts recorded in connection with the First and Second Amendments. The unamortized debt discount balance is recorded as a contra-liability to long-term debt on the accompanying condensed consolidated balance sheet and is being amortized as interest expense using the effective interest method. As of September 30, 2013, the unamortized balance of debt issuance costs of \$4,439 is being amortized as interest expense, and is included in other assets in the accompanying condensed consolidated balance sheets.

As of September 30, 2013, there were no outstanding 2011 Revolving Loan Facility borrowings and outstanding letters of credit issued totaled \$5,167. The unutilized portion of the 2011 Revolving Loan Facility as of September 30, 2013 was \$44,833.

Borrowings under the 2011 Term Loan Facility, at TSI, LLC’s option, bear interest at either the administrative agent’s base rate plus 3.5% or its Eurodollar rate plus 4.5%, each as defined in the 2011 Senior Credit Facility, as amended. The Eurodollar rate has a floor of 1.25% and the base rate has a floor of 2.25% with respect to the outstanding term loans. As of

Table of Contents

September 30, 2013, the interest rate was 5.75%. TSI, LLC is required to pay 0.25% of principal per quarter, in respect of such loans. If, as of the last day of any fiscal quarter of TSI Holdings, the total leverage ratio, as defined, is greater than 2.75:1.00, TSI, LLC is required to pay 1.25% of principal. Pursuant to the terms of the 2011 Senior Credit Facility, as amended, these regularly scheduled required quarterly principal payments may be reduced by voluntary prepayments. As a result of the \$15,000 voluntary prepayment on August 28, 2012 and maintaining a leverage ratio greater than 2.75:1.00, the Company was not required to pay the regularly scheduled quarterly principal payments for the period beginning September 30, 2012 through September 30, 2013, with regularly scheduled required payments resuming on December 31, 2013. As of December 31, 2012, March 31, 2013, June 30, 2013, and September 30, 2013, TSI, LLC had a total leverage ratio of 3.00:1.00, 3.04:1.00, 2.98:1.00, and 3.08:1.00, respectively. As of September 30, 2013, TSI LLC had made a total of \$44,257 in principal payments on the 2011 Term Loan Facility.

The terms of the 2011 Senior Credit Facility, as amended, provide for financial covenants which require TSI, LLC to maintain a total leverage ratio, as defined, of no greater than 4.50:1.00 effective March 31, 2012 and thereafter; an interest expense coverage ratio, as defined, of no less than 2.00:1.00; and a covenant that limits capital expenditures to \$40,000 for the four quarters ending in any quarter during which the total leverage ratio is greater than 3.00:1.00 and to \$50,000 for the four quarters ending in any quarter during which the ratio is less than or equal to 3.00:1.00 but greater than 2.50:1.00. This covenant does not limit capital expenditures if the ratio is less than or equal to 2.50:1.00. TSI, LLC was in compliance with these covenants as of September 30, 2013 with a total leverage ratio of 3.08:1.00 and an interest expense coverage ratio of 4.51:1.00. For the twelve month period ending September 30, 2013, TSC, LLC had capital expenditures totaling \$29,870.

TSI, LLC may prepay the 2011 Term Loan Facility and 2011 Revolving Loan Facility without premium or penalty in accordance with the 2011 Senior Credit Facility, as amended, except that a prepayment premium of 1.0% is payable for any prepayments made prior to November 14, 2013 in connection with a repricing transaction that reduces the effective yield of the initial term loans, otherwise the 1.0% prepayment premium would not be applicable. Mandatory prepayments are required in certain circumstances relating to cash flow in excess of certain expenditures, asset sales, insurance recovery and incurrence of certain other debt. The 2011 Senior Credit Facility contains provisions that require excess cash flow payments, as defined, to be applied against outstanding 2011 Term Loan Facility balances. The excess cash flow is calculated as of December 31 and any required principal payment for excess cash flow shall be paid the following March 31. The applicable excess cash flow repayment percentage is applied to the excess cash flow when determining the excess cash flow payment. Earnings, changes in working capital and capital expenditure levels all impact the determination of any excess cash flows. The applicable excess cash flow repayment percentage is 75% when the total leverage ratio, as defined in the 2011 Senior Credit Facility exceeds 3.00:1.00; 50% when the total leverage ratio is greater than 2.50:1.00 but less than or equal to 3.00:1.00; 25% when the total leverage ratio is greater than 2.00:1.00 but less than or equal to 2.50:1.00 and 0% when the total leverage ratio is less than or equal to 2.00:1.00. The calculation performed as of December 31, 2012 resulted in a total leverage ratio of 3.00:1.00. However, pursuant to the terms of the Second Amendment, a waiver was provided on the prepayment required to be paid using the Company's excess cash flow for the year ended December 31, 2012.

Fair Market Value

Based on quoted market prices of similar debt instruments, the 2011 Term Loan Facility had a fair value of approximately \$319,295 and \$322,058 at September 30, 2013 and December 31, 2012, respectively and is classified within level 2 of the fair value hierarchy.

4. Derivative Financial Instruments

In its normal operations, the Company is exposed to market risks relating to fluctuations in interest rates. In order to minimize the possible negative impact of such fluctuations on the Company's cash flows the Company may enter into derivative financial instruments ("derivatives"), such as interest-rate swaps. Any instruments are not entered into for trading purposes and the Company only uses commonly traded instruments. Currently, the Company has used derivatives solely relating to the variability of cash flows from interest rate fluctuations.

Effective July 13, 2011, the Company entered into an interest rate swap arrangement which effectively converted \$150,000 of its variable-rate debt based on a one-month Eurodollar rate to a fixed rate of 2.0%, or a total fixed rate of 7.5%, on this \$150,000 when including the applicable 5.50% margin. In August 2012, the Company amended the terms of the 2011 Senior Credit Facility to, among other things, reduce the applicable margin on Eurodollar rate loans from 5.50% to 4.50% and reduce the interest rate floor on Eurodollar rate loans from 1.50% to 1.25%. In conjunction with the First Amendment to the 2011 Senior Credit Facility in August 2012, the interest rate swap arrangement was amended to reduce the one-month Eurodollar fixed rate from 2.0% to 1.8%, or a total fixed rate of 6.3% when including the applicable 4.50% margin on Eurodollar rate loans. On November 14, 2012, the Company further amended the terms of the 2011 Senior Credit Facility to,

Table of Contents

among other things, allow for the borrowing of a \$60,000 incremental term loan. In connection with the Second Amendment to the 2011 Credit Facility, the Company further amended the interest rate swap to increase the notional amount to \$160,000 and extend the maturity of the swap from July 13, 2014 to May 13, 2015. In addition, the one-month Eurodollar fixed rate was lowered from 1.8% to 1.7%, or a total of 6.2% when including the applicable 4.50% margin on Eurodollar rate loans. As of the incremental term loan borrowing date, the interest rate swap arrangement covered \$160,000 of the Company's total variable rate debt of \$315,743. As permitted by FASB Accounting Standards Codification ("ASC") 815, Derivatives and Hedging, the Company has designated this swap as a cash flow hedge, the effects of which have been reflected in the Company's condensed consolidated financial statements as of and for the three and nine months ended September 30, 2013 and 2012. The objective of this hedge is to manage the variability of cash flows in the interest payments related to the portion of the variable-rate debt designated as being hedged.

When a derivative is executed and hedge accounting is appropriate, it is designated as a cash flow hedge at inception with re-designation being permitted under ASC 815, Derivatives and Hedging. Interest rate swaps are designated as cash flow hedges for accounting purposes since they are being used to transform variable interest rate exposure to fixed interest rate exposure on a recognized liability (debt). On an ongoing basis, the Company performs a quarterly assessment of the hedge effectiveness of the hedge relationship and measures and recognizes any hedge ineffectiveness in the condensed consolidated statements of income. For the three and nine months ended September 30, 2013, hedge ineffectiveness was evaluated using the hypothetical derivative method, with the ineffective portion of the hedge, if any, being reported in the Company's condensed consolidated statements of income. There was no hedge ineffectiveness during the three and nine months ended September 30, 2013. The amount related to hedge ineffectiveness for the three and nine months ended September 30, 2012 was de minimis.

Accounting guidance on fair value measurements specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1—Quoted prices for *identical* instruments in active markets.
- Level 2—Quoted prices for *similar* instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3—Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The fair value for the Company's interest rate swap is determined using observable current market information such as the prevailing Eurodollar interest rate and Eurodollar yield curve rates and includes consideration of counterparty credit risk. The following table presents the fair value of the Company's derivative financial instrument:

	Fair Value Measurements Using:			
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap liability as of September 30, 2013	\$ 1,073	\$ —	\$ 1,073	\$ —

The swap contract liability of \$1,073 is recorded as a component of other liabilities with an offset to accumulated other comprehensive income (\$606, net of taxes) on the accompanying condensed consolidated balance sheet as of September 30, 2013.

There were no significant reclassifications out of accumulated other comprehensive income during the nine months ended September 30, 2013 and 2012 and the Company does not expect that significant derivative losses included in accumulated other comprehensive income at September 30, 2013 will be reclassified into earnings within the next 12 months.

Table of Contents

5. Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and the interest rate swap. Although the Company deposits its cash with more than one financial institution, as of September 30, 2013, \$47,801 of the cash and cash equivalents balance of \$67,961 was held at one financial institution. The Company has not experienced any losses on cash and cash equivalent accounts to date, and the Company believes that, based on the credit ratings of these financial institutions, it is not exposed to any significant credit risk related to cash at this time.

The counterparty to the Company's interest rate swap is a major banking institution with a credit rating of investment grade or better and no collateral is required, and there are no significant risk concentrations. The Company believes the risk of incurring losses on derivative contracts related to credit risk is unlikely.

6. Earnings Per Share

Basic earnings per share is computed by dividing net income applicable to common stockholders by the weighted average numbers of shares of common stock outstanding during the period. Diluted earnings per share is computed similarly to basic earnings per share, except that the denominator is increased for the assumed exercise of dilutive stock options and unvested restricted stock calculated using the treasury stock method.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Weighted average number of shares outstanding — basic	24,101,239	23,581,631	24,007,310	23,331,877
Effect of dilutive share based awards	619,272	604,867	605,926	683,870
Weighted average number of common shares outstanding — diluted	<u>24,720,511</u>	<u>24,186,498</u>	<u>24,613,236</u>	<u>24,015,747</u>
Earnings per share:				
Basic	\$ 0.11	\$ 0.13	\$ 0.54	\$ 0.53
Diluted	\$ 0.10	\$ 0.13	\$ 0.53	\$ 0.52

For the three and nine months ended September 30, 2013, the Company did not include stock options to purchase 269,000 shares and 272,139 shares of the Company's common stock, respectively, in the calculations of diluted EPS because the exercise prices of those options were greater than the average market price and such inclusion would be anti-dilutive.

For the three and nine months ended September 30, 2012, the Company did not include stock options to purchase 141,733 shares and 313,862 shares of the Company's common stock, respectively, in the calculations of diluted EPS because the exercise prices of those options were greater than the average market price and such inclusion would be anti-dilutive.

7. Stock-Based Compensation

The Company's 2006 Stock Incentive Plan, as amended and restated (the "2006 Plan"), authorizes the Company to issue up to 3,000,000 shares of common stock to employees, non-employee directors and consultants pursuant to awards of stock options, stock appreciation rights, restricted stock, in payment of performance shares or other stock-based awards. Under the 2006 Plan, stock options must be granted at a price not less than the fair market value of the stock on the date the option is granted, generally are not subject to re-pricing, and will not be exercisable more than ten years after the date of grant. Options granted under the 2006 Plan generally qualify as "non-qualified stock options" under the U.S. Internal Revenue Code. Certain options granted under the Company's 2004 Common Stock Option Plan, as amended (the "2004 Plan"), generally qualify as "incentive stock options" under the U.S. Internal Revenue Code; the exercise price of a stock option granted under this plan may not be less than the fair market value of common stock on the option grant date. As of September 30, 2013, there were 354,607 shares available to be issued under the 2006 Plan.

Table of Contents

At September 30, 2013, the Company had 12,460 stock options outstanding under the 2004 Plan while the 2006 Plan had 1,168,426 stock options outstanding and 498,987 shares of restricted stock outstanding.

Stock Option Awards

The Company did not issue any stock option grants during the nine months ended September 30, 2013.

The total compensation expense, classified within payroll and related on the condensed consolidated statements of income, related to stock options outstanding was \$188 and \$564 for the three and nine months ended September 30, 2013, respectively, and \$113 and \$409 for the three and nine months ended September 30, 2012, respectively.

As of September 30, 2013, a total of \$334 in unrecognized compensation cost related to stock options is expected to be recognized over a weighted-average period of 0.9 years.

Restricted Stock Awards

On February 22, 2013, March 11, 2013, and May 17, 2013, the Company issued 7,500, 168,000, and 3,000 shares of restricted stock, respectively, to employees. The fair value per share for the February 22, 2013, March 11, 2013 and May 17, 2013 restricted stock awards were \$9.15, \$9.31, and \$10.79, respectively, representing the closing stock price on the respective dates of grant. These shares will vest 25% per year over four years on the anniversary dates of the respective grants.

The total compensation expense, classified within payroll and related on the condensed consolidated statements of income, related to restricted stock was \$265 and \$738 for the three and nine months ended September 30, 2013, respectively, and \$105 and \$262 for the three and nine months ended September 30, 2012, respectively.

As of September 30, 2013, a total of \$3,570 in unrecognized compensation expense related to restricted stock awards is expected to be recognized over a weighted-average period of 3.0 years.

Stock Grants

In the nine months ended September 30, 2013, the Company issued shares of common stock to members of the Company's Board of Directors in respect of their annual and quarterly retainer. The total fair value of the shares issued was expensed upon the date of grant. The total compensation expense, classified within general and administrative expenses, related to Board of Director common stock grants was \$15 and \$290 for the three and nine months ended September 30, 2013, respectively, and \$0 and \$116 for the three and nine months ended September 30, 2012, respectively. Total shares issued during the nine months ended September 30, 2013 were:

<u>Grant Date</u>	<u>Number of Shares</u>	<u>Price Per Share</u>	<u>Aggregate Grant Date Fair Value</u>
January 16, 2013	24,280	\$ 10.09	\$ 245
March 25, 2013	1,622	\$ 9.25	\$ 15
June 24, 2013	1,418	\$ 10.58	\$ 15
September 24, 2013	1,208	\$ 12.42	\$ 15

8. Fixed Asset Impairment

Fixed assets are evaluated for impairment periodically whenever events or changes in circumstances indicate that related carrying amounts may not be recoverable from undiscounted cash flows in accordance with FASB guidance. The Company's long-lived assets and liabilities are grouped at the individual club level, which is the lowest level for which there are identifiable cash flows. To the extent that estimated future undiscounted net cash flows attributable to the assets are less than the carrying amount, an impairment charge equal to the difference between the carrying value of such assets and their fair values, calculated using discounted cash flows, is recognized. In the three months ended September 30, 2013, the Company tested eight underperforming clubs and recorded an impairment loss of \$439 on leasehold improvements and furniture and fixtures at one of these clubs that experienced decreased profitability and sales levels below expectations. The seven other clubs tested that did not have impairment charges had an aggregate of \$19,895 of net leasehold improvements and furniture and fixtures remaining as of September 30, 2013. The Company will continue to monitor the results and changes in expectations of these clubs closely during the remainder of 2013 to determine if fixed asset impairment charges will be necessary. The fixed asset impairment loss is included as a component of operating expenses in a separate line on the condensed consolidated statements of income. In the nine months ended September 30, 2013, the Company recorded a total of \$567 of impairment losses at two clubs compared to an impairment loss of \$239 recorded at one club in the nine months ended September 30, 2012.

Table of Contents

The fair values of fixed assets evaluated for impairment were calculated using Level 3 inputs using discounted cash flows, which are based on internal budgets and forecasts through the end of each respective lease. The most significant assumptions in those budgets and forecasts relate to estimated membership and ancillary revenue, attrition rates, and maintenance capital expenditures, which expenditures are estimated at approximately 1% to 3% of total revenues depending upon the conditions and needs of a given club.

9. Goodwill and Other Intangibles

Goodwill has been allocated to reporting units that closely reflect the regions served by the Company's four trade names: New York Sports Clubs ("NYSC"), Boston Sports Clubs ("BSC"), Washington Sports Clubs ("WSC") and Philadelphia Sports Clubs ("PSC"), with certain more remote clubs that do not benefit from a regional cluster being considered single reporting units ("Outlier Clubs") and the Company's three clubs located in Switzerland being considered a single reporting unit ("SSC"). The Company has one Outlier Club with goodwill. As of September 30, 2013, the WSC and PSC regions do not have goodwill balances.

The Company's annual goodwill impairment tests are performed on the last day of February, or more frequently, should circumstances change which would indicate the fair value of goodwill is below its carrying amount.

The Company's current year annual goodwill impairment test as of February 28, 2013 was performed using the two-step goodwill impairment analysis. Under this approach, goodwill impairment testing is a two-step process. Step 1 involves comparing the fair value of the Company's reporting units to their carrying amounts. If the fair value of the reporting unit is greater than its carrying amount, there is no requirement to perform step two of the impairment test, and there is no impairment. If the reporting unit's carrying amount is greater than the fair value, the second step must be completed to measure the amount of impairment, if any. Step 2 calculates the implied fair value of goodwill by deducting the fair value of all tangible and intangible assets, excluding goodwill, of the reporting unit from the fair value of the reporting unit as determined in Step 1. The implied fair value of goodwill determined in this step is compared to the carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized equal to the difference. The Company concluded that it did not have a goodwill impairment charge in the reporting units with remaining goodwill.

For the February 28, 2013 impairment test, fair value was determined by using a weighted combination of two market-based approaches (weighted 50% collectively) and an income approach (weighted 50%), as this combination was deemed to be the most indicative of the Company's fair value in an orderly transaction between market participants. Under the market-based approaches, the Company utilized information regarding the Company, the Company's industry as well as publicly available industry information to determine earnings multiples and sales multiples that are used to value the Company's reporting units. Under the income approach, the Company determined fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital, which reflects the overall level of inherent risk of a reporting unit and the rate of return an outside investor would expect to earn. Determining the fair value of a reporting unit is judgmental in nature and requires the use of significant estimates and assumptions, including revenue growth rates and operating margins, discount rates and future market conditions, among others. These assumptions were determined separately for each reporting unit. The Company believes its assumptions are reasonable, however, there can be no assurance that the Company's estimates and assumptions made for purposes of the Company's goodwill impairment testing as of February 28, 2013 will prove to be accurate predictions of the future. If the Company's assumptions regarding forecasted revenue or margin growth rates of certain reporting units are not achieved, the Company may be required to record goodwill impairment.

Table of Contents

charges in future periods, whether in connection with the Company's next annual impairment testing as of February 28, 2014 or prior to that, if any such change constitutes a triggering event outside the quarter when the annual goodwill impairment test is performed. It is not possible at this time to determine if any such future impairment charge would result. As of February 28, 2013, the estimated fair value of NYSC was 127% greater than book value and the estimated fair value of SSC was 120% greater than book value.

The Company's next annual impairment test will be performed as of February 28, 2014 or earlier, if any such change constitutes a triggering event outside the quarter when the annual goodwill impairment test is performed. There have been no triggering events since the annual impairment test as of February 28, 2013.

The changes in the carrying amount of goodwill from December 31, 2012 through September 30, 2013 are detailed in the charts below.

	NYSC	BSC	SSC	Outlier Clubs	Total
Goodwill	\$31,403	\$ 15,766	\$1,284	\$ 3,982	\$ 52,435
Less: accumulated amortization	—	(15,766)	—	(3,845)	(19,611)
Balance as December 31, 2012	<u>31,403</u>	<u>—</u>	<u>1,284</u>	<u>137</u>	<u>32,824</u>
Acquired goodwill (Refer to Note 10, Acquisitions)	—	9	—	—	9
Changes due to foreign currency exchange rate fluctuations	—	—	17	—	17
Balance as of September 30, 2013	<u>\$31,403</u>	<u>\$ 9</u>	<u>\$1,301</u>	<u>\$ 137</u>	<u>\$ 32,850</u>

As of December 31, 2012, all intangible assets were fully amortized. Intangible assets were acquired in connection with the Company's recent acquisitions during the nine months ended September 30, 2013. Amortization expense for the three and nine months ended September 30, 2013 was \$125 and \$185, respectively.

Intangible assets as of September 30, 2013 are as follows:

	As of September 30, 2013		
	Gross Carrying Amount	Accumulated Amortization	Net Intangible Assets
Membership lists	\$ 11,344	\$ (10,580)	\$ 764
Non compete agreements	1,508	(1,508)	—
Management contracts	250	(16)	234
Trade names	40	(1)	39
Other	23	(23)	—
	<u>\$ 13,165</u>	<u>\$ (12,128)</u>	<u>\$ 1,037</u>

10. Acquisitions

The following acquisitions were completed during the nine months ended September 30, 2013 and were accounted for using the acquisition method of accounting in accordance with FASB guidance. Under the acquisition method, the purchase price was allocated to the assets acquired and the liabilities assumed based on their respective estimated fair values as of the acquisition date. Any excess of the purchase price over the fair values of the assets acquired and liabilities assumed was allocated to goodwill. None of the acquisitions individually or in the aggregate were material to the financial position, results of operations or cash flows of the Company; therefore pro forma financial information has not been presented. The results of operations of the clubs acquired have been included in the Company's consolidated financial statements from the respective dates of acquisition.

Acquisition on March 15, 2013

On March 15, 2013, the Company acquired an existing fitness club in Manhattan, New York for a purchase price of \$560. The purchase price allocation resulted in fixed assets related to leasehold improvements of \$458, definite lived intangible assets related to member lists of \$102 and a deferred revenue liability of \$56, for a net cash purchase price of \$504. Acquisition costs incurred in connection with this acquisition during the nine months ended September 30, 2013 were approximately \$95 and are included in general and administrative expenses in the accompanying condensed consolidated statements of income.

Table of Contents

Acquisition on May 17, 2013

On May 17, 2013, the Company acquired all of the Fitcorp clubs in Boston, which includes five clubs and four managed sites for a purchase price of \$3,175 and a net cash purchase price of \$2,435. Acquisition costs incurred in connection with the Fitcorp acquisition during the nine months ended September 30, 2013 were approximately \$213 and are included in general and administrative expenses in the accompanying condensed consolidated statements of income. The following table summarizes the allocation of the purchase price to the fair value of the assets and liabilities acquired. The purchase price allocation presented below has been prepared on a preliminary basis and changes to the preliminary allocations may occur as additional information concerning asset and liability valuations are finalized.

	Acquisition on May 17, 2013
Allocation of purchase price:	
Other assets	\$ 90
Fixed assets related to leasehold improvements	2,289
Goodwill	9
Definite lived intangible assets:	
Membership lists	830
Management contracts	250
Trade names	40
Deferred revenue	(630)
Other liabilities	(443)
Total allocation of purchase price	<u>\$ 2,435</u>

The goodwill recognized represents the excess of the purchase price over the fair values of the assets acquired and liabilities assumed. The goodwill is primarily attributable to the avoided costs of acquiring the assembled workforce and is not deductible for tax purposes. The definite lived intangible assets acquired will be amortized in accordance with the Company's accounting policy with the membership lists amortized over the estimated average membership life of 23 months, management contracts amortized over their estimated contractual lives of between nine to 11 years and trade names amortized over their estimated useful lives.

11. Income Taxes

The Company recorded a provision for corporate income taxes of \$7,767 and \$7,524 for the nine months ended September 30, 2013 and 2012, respectively, reflecting an effective income tax rate of 37% and 38%, respectively. The Company's 2013 and 2012 forecasted annual effective tax rates of 38% and 39% at September 2013 and September 2012, respectively, were favorably impacted by approximately 5% in each period due to tax benefits derived from the captive insurance arrangement.

As of September 30, 2013, \$750 represented the amount of unrecognized tax benefits that, if recognized, would affect the Company's effective tax rate in future periods. The Company recognizes both interest accrued related to unrecognized tax benefits and penalties in income tax expense. The Company had accruals for interest net of the federal tax benefit as of September 30, 2013 and 2012 of \$341 and \$289, respectively. In 2013, the total amount of the unrecognized tax benefits, including related interest accruals, could be realized by the Company if the income tax returns are no longer subject to audit during 2013.

The Company files federal, foreign and multiple state and local jurisdiction income tax returns. The Company is no longer subject to examinations of its federal income tax returns by the Internal Revenue Service for years 2009 and prior.

The following state and local jurisdictions are currently examining the Company's respective returns for the years indicated: New York State (2006, 2007, 2008, and 2009), New York City (2006, 2007, and 2008), and the Commonwealth of Massachusetts (2009, 2010). It is difficult to predict the final outcome or timing of resolution of any particular matter regarding these examinations, however, it may be reasonably possible that one or more of these examinations may result in a change in the reserve for uncertain tax positions over the next twelve months.

Table of Contents

As of September 30, 2013, the Company has net deferred tax assets of \$26,710. The state net deferred tax asset balance as of September 30, 2013 is \$20,843. Quarterly, the Company assesses the weight of all positive and negative evidence to determine whether the net deferred tax asset is realizable. The Company was profitable for the years ended December 31, 2012 and December 31, 2011 and the Company was profitable for the nine months ended September 30, 2013 and expects to be in a three year cumulative income position as of December 31, 2013 for both federal and most state jurisdictions. In addition, the Company, based on recent trends, projects future income sufficient to realize the deferred tax assets during the periods when the temporary tax deductible differences reverse. With the exception of the deductions related to our captive insurance company for state taxes, state taxable income has been and is projected to be the same as federal taxable income. Because the Company expects the captive insurance company to be discontinued in 2014, the assessment of the realizability of the state deferred tax assets is consistent with the federal tax analysis above. The Company has federal and state net operating loss carry-forwards which the Company believes will be realized within the available carry-forward period, except for a small state net operating loss carry-forward in Rhode Island due to the short carry-forward period in that state. Accordingly, the Company concluded that it is more likely than not that the deferred tax assets will be realized. If actual results do not meet the Company's forecasts and the Company incurs losses in 2013 and beyond, a valuation allowance against the deferred tax assets may be required in the future.

12. Commitments and Contingencies

On or about March 1, 2005, in an action styled *Sarah Cruz, et al v. Town Sports International, d/b/a New York Sports Club*, plaintiffs commenced a purported class action against TSI, LLC in the Supreme Court, New York County, seeking unpaid wages and alleging that TSI, LLC violated various overtime provisions of the New York State Labor Law with respect to the payment of wages to certain trainers and assistant fitness managers. On or about June 18, 2007, the same plaintiffs commenced a second purported class action against TSI, LLC in the Supreme Court of the State of New York, New York County, seeking unpaid wages and alleging that TSI, LLC violated various wage payment and overtime provisions of the New York State Labor Law with respect to the payment of wages to all New York purported hourly employees. On September 17, 2010, TSI, LLC made motions to dismiss the class action allegations of both lawsuits for plaintiffs' failure to timely file motions to certify the class actions. The court granted the motions on January 29, 2013, dismissing the class action allegations in both lawsuits. On March 4, 2013, plaintiffs served notice of their intent to appeal that dismissal. The court has stayed the remaining, individual claims in each action pending resolution of the plaintiffs' appeal.

On September 22, 2009, in an action styled *Town Sports International, LLC v. Ajilon Solutions, a division of Ajilon Professional Staffing LLC* (Supreme Court of the State of New York, New York County, 602911-09), TSI, LLC brought an action in the Supreme Court of the State of New York, New York County, against Ajilon for, among other things, breach of contract seeking, among other things, money damages, in connection with Ajilon's failure to design and deliver to TSI, LLC a new sports club enterprise management system known as GIMS. Subsequently, on October 14, 2009, Ajilon brought a counterclaim against TSI, LLC alleging breach of contract, asserting, among other things, failure to pay outstanding invoices in the aggregate amount of approximately \$2,900. Following a jury trial, a jury verdict was rendered on January 28, 2013, that awarded TSI, LLC damages against Ajilon in the amount of approximately \$3,300, plus interest, and also awarded Ajilon damages against TSI, LLC in the amount of approximately \$214, plus interest. After the Court granted Ajilon's motion to set aside the part of the jury verdict that had rejected the bulk of Ajilon's counterclaim, the Court increased the award of damages against TSI, LLC from approximately \$214 to approximately \$2,900, plus interest. The result is a net amount owed to TSI, LLC in the amount of approximately \$400, plus interest. On April 8, 2013, TSI, LLC filed a notice of appeal, appealing the Court's decision to set aside the jury verdict, and on May 6, 2013, Ajilon filed its notice of appeal, appealing the verdict. The appeals were perfected and remain pending.

On February 7, 2007, in an action styled *White Plains Plaza Realty, LLC v. TSI, LLC et al.*, the landlord of one of TSI, LLC's former health and fitness clubs filed a lawsuit in state court against it and two of its health club subsidiaries alleging, among other things, breach of lease in connection with the decision to close the club located in a building owned by the plaintiff and leased to a subsidiary of TSI, LLC, and take additional space in the nearby facility leased by another subsidiary of TSI, LLC. The trial court granted the landlord damages against its tenant in the amount of approximately \$700, including interest and costs ("Initial Award"). TSI, LLC was held to be jointly liable with the tenant for the amount of approximately \$488, under a limited guarantee of the tenant's lease obligations. The landlord subsequently appealed the trial court's award of damages, and on December 21, 2010, the appellate court reversed, in part, the trial court's decision and ordered the case remanded to the trial court for an assessment of additional damages, of approximately \$750 plus interest and costs (the "Additional Award"). On February 7, 2011, the landlord moved for re-argument of the appellate court's decision, seeking additional damages plus attorneys' fees. On April 8, 2011, the appellate court denied the landlord's motion. On August 29, 2011, the Additional Award (amounting to approximately \$900), was entered against the tenant, who has recorded a liability. TSI, LLC does not believe it is probable that TSI, LLC will be held liable to pay for any amount of the Additional Award. Separately, TSI, LLC is party to an agreement with a third-party developer, which by its terms provides indemnification for the full amount of any liability of any nature arising out of the lease described above, including attorneys' fees incurred to enforce the indemnity. In connection with the Initial Award (and in furtherance of the indemnification agreement), TSI, LLC

Table of Contents

and the developer have entered into an agreement pursuant to which the developer has agreed to pay the amount of the Initial Award in installments over time. The indemnification agreement also covers the Additional Award, and therefore the Tenant has recorded a receivable related to the indemnification. The developer did not pay the amount of the Additional Award to the landlord, and on October 13, 2011, the landlord commenced a special proceeding in the Supreme Court of the State of New York, Westchester County, to collect the Additional Award directly from the developer. A motion to dismiss the special proceeding made by the developer was denied by the court on March 13, 2012. An appeal of that decision by the developer is pending. On March 14, 2013, the landlord moved for summary judgment on its claim to recover the Additional Award directly from the developer and on March 25, 2013, the developer cross-moved for summary judgment to dismiss the special proceeding. On May 30, 2013, the court granted summary judgment to the landlord and denied the cross-motion for summary judgment of the developer. Judgment was entered against the developer on June 5, 2013 in the amount of approximately \$1,045, plus interest. On June 13, 2013, the developer filed a notice of its intent to appeal the judgment.

On or about October 4, 2012, in an action styled *James Labbe, et al. v. Town Sports International, LLC*, plaintiff commenced a purported class action in New York State court on behalf of personal trainers employed in New York State. Labbe is seeking unpaid wages and damages from TSI, LLC and alleges violations of various provisions of the New York State labor law with respect to payment of wages and TSI, LLC's notification and record-keeping obligations. On December 18, 2012, TSI, LLC filed a motion to stay the class action pending a decision on class certification in the Cruz case and to dismiss the Labbe action if the Cruz case is certified. On January 29, 2013, Labbe responded to the motion to stay and filed a cross-motion to consolidate the Labbe case with the Cruz case. On February 11, 2013, following the dismissal of the class claims in Cruz, Labbe withdrew the cross-motion to consolidate. Oral argument to stay the action until a decision is made on the appeal in the Cruz case was heard on April 10, 2013. While it is not possible to estimate the likelihood of an unfavorable outcome or a range of loss in the case of an unfavorable outcome to TSI, LLC at this time, TSI, LLC intends to contest this case vigorously.

In addition to the litigation discussed above, the Company is involved in various other lawsuits, claims and proceedings incidental to the ordinary course of business, including personal injury and employee relations claims. The results of litigation are inherently unpredictable. Any claims against the Company, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. The results of these other lawsuits, claims and proceedings cannot be predicted with certainty. While it is not feasible to predict the outcome of such proceedings, in the opinion of the Company, either the likelihood of loss is remote or any reasonably possible loss associated with the resolution of such proceedings is not expected to be material either individually or in the aggregate.

13. Other

During the nine months ended September 30, 2013, the Company collected \$3,194 of insurance proceeds, the majority of which related to insurance claims covering certain clubs that were damaged and suffered losses in connection with Hurricane Sandy.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Introduction

In this Form 10-Q, unless otherwise stated or the context otherwise indicates, references to "TSI Holdings," "Town Sports," "TSI," "the Company," "we," "our" and similar references refer to Town Sports International Holdings, Inc. and its subsidiaries, and references to "TSI, LLC" refer to Town Sports International, LLC, our wholly-owned operating subsidiary.

Based on the number of clubs, we are one of the leading owners and operators of fitness clubs in the Northeast and Mid-Atlantic regions of the United States and one of the largest fitness club owners and operators in the United States. As of September 30, 2013, the Company, through its subsidiaries, operated 162 fitness clubs. Our clubs collectively served approximately 507,000 members, including 42,000 members under our restricted student and teacher memberships as of September 30, 2013. We owned and operated a total of 108 clubs under the "New York Sports Clubs" brand name within a 120-mile radius of New York City as of September 30, 2013, including 37 locations in Manhattan where we are the largest fitness club owner and operator. We owned and operated 29 clubs in the Boston region under our "Boston Sports Clubs" brand name, 16 clubs (two of which are partly-owned) in the Washington, D.C. region under our "Washington Sports Clubs" brand name and six clubs in the Philadelphia region under our "Philadelphia Sports Clubs" brand name as of September 30, 2013. In addition, we owned and operated three clubs in Switzerland as of September 30, 2013. We employ localized brand names for our clubs to create an image and atmosphere consistent with the local community and to foster recognition as a local network of quality fitness clubs rather than a national chain.

We develop clusters of clubs to serve densely populated major metropolitan regions and we service such populations by clustering clubs near the highest concentrations of our target customers' areas of both employment and residence. Our clubs are located for maximum convenience to our members in urban or suburban areas, close to transportation hubs or office or retail centers. Our members include a wide age demographic covering the student market to the active mature market. Our members generally have annual income levels of between \$50,000 and \$150,000. We believe that this "mid-value" segment is the broadest of the market. Our goal is to be the most recognized health club network in each of the four major metropolitan regions that we serve. We believe that our strategy of clustering clubs provides significant benefits to our members and allows us to achieve strategic operating advantages. In each of our markets, we have developed clusters by initially opening or acquiring clubs located in the more central urban markets of the region and then branching out from these urban centers to suburbs and neighboring communities.

On May 17, 2013, we completed the acquisition of the assets of the Fitcorp clubs in Boston, which included five clubs and four managed sites. We also completed an acquisition on March 15, 2013 of a single club in Manhattan. The results of operations of the clubs acquired have been included in the Company's consolidated financial statements from the respective dates of acquisition. These acquisitions were not material to the financial condition, results of operations or cash flows of the Company.

Revenue and operating expenses

We have two principal sources of revenue:

- *Membership revenue:* Our largest sources of revenue are dues and joining fees paid by our members. In addition, we collect usage fees on a per visit basis subject to peak and off-peak hourly restrictions depending on membership type. These dues and fees comprised 79.2% of our total revenue for the nine months ended September 30, 2013. We recognize revenue from membership dues in the month when the services are rendered. Approximately 97% of our members pay their monthly dues by Electronic Funds Transfer, or EFT, while the balance is paid annually in advance. We recognize revenue from joining fees over the estimated average membership life.
- *Ancillary club revenue:* For the nine months ended September 30, 2013, we generated 14.2% of our revenue from personal training and 5.6% of our revenue from other ancillary programs and services consisting of programming for children, signature classes, Small Group Training and other member activities, as well as sales of miscellaneous sports products. We continue to focus on opportunities to grow ancillary club revenue by building on ancillary programs such as our personal training membership product and our fee-based Small Group Training programs.

We also receive revenue (approximately 1.0% of our total revenue for the nine months ended September 30, 2013) from the rental of space in our facilities to operators who offer wellness-related offerings, such as physical therapy and juice bars. In addition, we sell in-club advertising and sponsorships and generate management fees from certain club facilities that we do not wholly own. We refer to these revenues as fees and other revenue.

Table of Contents

Our performance is dependent on our ability to continually attract and retain members at our clubs. We experience attrition at our clubs and must attract new members in order to maintain our membership and revenue levels. In both the three months ended September 30, 2013 and 2012, our monthly average attrition rate was 3.7%.

Our operating and selling expenses are comprised of both fixed and variable costs. Fixed costs include club and supervisory and other salary and related expenses, occupancy costs, including most elements of rent, utilities, housekeeping and contracted maintenance expenses, as well as depreciation. Variable costs are primarily related to payroll associated with ancillary club revenue, membership sales compensation, advertising, certain facility maintenance, and club supplies.

General and administrative expenses include costs relating to our centralized support functions, such as accounting, insurance, information and communication systems, purchasing, member relations, legal and consulting fees and real estate development expenses. Payroll and related expenses are included in a separate line item on the condensed consolidated statements of income and are not included in general and administrative expenses.

As clubs mature and increase their membership base, fixed costs are typically spread over an increasing revenue base and operating margins tend to improve. Conversely, when our membership base declines, our operating margins are negatively impacted.

As of September 30, 2013, 160 of our existing fitness clubs were wholly-owned by us and our condensed consolidated financial statements include the operating results of all such clubs. Two clubs in Washington, D.C. were partly-owned and operated by us, with our profit sharing percentages approximating 20% (after priority distributions) and 45%, respectively, and are treated as unconsolidated affiliates for which we apply the equity method of accounting. In addition, we provide management services at three fitness clubs located in colleges and universities and four additional managed sites acquired with the Fitcorp acquisition on May 17, 2013, in which we have no equity interest.

Historical Club Count

The following table sets forth the changes in our club count during each of the quarters in 2012, the full-year 2012 and the first, second and third quarters of 2013.

	2012					2013		
	Q1	Q2	Q3	Q4	Full-Year	Q1	Q2	Q3
Wholly owned clubs operated at beginning of period	158	158	158	158	158	158	157	162
Acquired clubs	—	—	—	—	—	1	5	—
Clubs closed, relocated or merged	—	—	—	—	—	(2)	—	(2)
Wholly owned clubs at end of period	158	158	158	158	158	157	162	160
Total clubs operated at end of period (1)(2)	160	160	160	160	160	159	164	162

- (1) Club count for the fourth quarter of 2012 included two clubs that were closed due to damages sustained from Hurricane Sandy. One of the two damaged clubs permanently closed during the first quarter of 2013 and one has remained temporarily closed.
- (2) Includes wholly-owned and partly-owned clubs. In addition to the above, during the periods presented, we managed three university fitness clubs in which we did not have an equity interest as well as four additional managed locations that were acquired as part of the acquisition of Fitcorp in May 2013.

Table of Contents

Comparable Club Revenue

We define comparable club revenue as revenue at those clubs that were operated by us for over 12 months and comparable club revenue increase (decrease) as revenue for the 13th month and thereafter as applicable as compared to the same period of the prior year.

Key determinants of the comparable club revenue increases (decreases) shown in the table below are new memberships, member retention rates, pricing and ancillary revenue increases (decreases).

2012	
Three months ended March 31, 2012	4.5%
Three months ended June 30, 2012	2.1%
Three months ended September 30, 2012 (a)	1.0%
Three months ended December 31, 2012	(1.1)%
2013	
Three months ended March 31, 2013	(2.4)%
Three months ended June 30, 2013	(1.7)%
Three months ended September 30, 2013	(1.7)%

- (a) Comparable club revenue for the third quarter of 2012 excludes \$1.2 million of additional fees and other revenue realized in connection with the termination of a long-term marketing arrangement with a third party in-club advertiser.

The recent comparable club revenue declines experienced since the fourth quarter of 2012 is primarily due to the impact of membership declines as well as decreases in ancillary club revenues. We experienced an overall member loss of 12,000 during the fourth quarter of 2012, with full-year 2012 member loss of 13,000, or a 2.5% decline, from December 31, 2011 to December 31, 2012. Comparable club revenue decreased 1.7% in the three months ended September 30, 2013 as compared to the prior year. Memberships at our comparable clubs were down 3.0% which was partially offset by a 1.1% increase in the price of our dues and fees and a 0.2% increase in the combined effect of ancillary club revenue, initiation fees and other revenue.

Table of Contents

Results of Operations

The following table sets forth certain operating data as a percentage of revenue for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Revenue	100.0%	100.0%	100.0%	100.0%
Operating expenses:				
Payroll and related	37.1	36.5	37.0	37.3
Club operating	38.7	38.7	37.5	37.3
General and administrative	6.2	4.7	5.9	4.9

Insurance recovery related to damaged property	(0.6)	—	(0.9)	—
Impairment of fixed assets	0.4	0.2	0.2	0.1
	<u>92.5</u>	<u>90.3</u>	<u>90.1</u>	<u>89.8</u>
Operating income	7.5	9.7	9.9	10.2
Loss on extinguishment of debt	—	0.8	—	0.3
Interest expense	4.7	5.4	4.5	4.9
Equity in the earnings of investees and rental income	(0.5)	(0.5)	(0.5)	(0.5)
Income before provision for corporate income taxes	<u>3.3</u>	<u>4.0</u>	<u>5.9</u>	<u>5.5</u>
Provision for corporate income taxes	<u>1.1</u>	<u>1.4</u>	<u>2.2</u>	<u>2.1</u>
Net income	<u>2.2%</u>	<u>2.6%</u>	<u>3.7%</u>	<u>3.4%</u>

Revenue (in thousands) was comprised of the following for the periods indicated:

	Three Months Ended September 30,				% Variance
	2013		2012		
	Revenue	% Revenue	Revenue	% Revenue	
Membership dues	\$ 89,251	76.3%	\$ 90,661	75.8%	(1.6)%
Joining fees	3,636	3.1%	3,014	2.5%	20.6%
Membership revenue	<u>92,887</u>	<u>79.4%</u>	<u>93,675</u>	<u>78.3%</u>	<u>(0.8)%</u>
Personal training revenue	16,402	14.0%	15,623	13.1%	5.0%
Other ancillary club revenue (1)	<u>6,350</u>	<u>5.4%</u>	<u>8,067</u>	<u>6.7%</u>	<u>(21.3)%</u>
Ancillary club revenue	22,752	19.4%	23,690	19.8%	(4.0)%
Fees and other revenue (2)	<u>1,403</u>	<u>1.2%</u>	<u>2,247</u>	<u>1.9%</u>	<u>(37.6)%</u>
Total revenue	<u>\$117,042</u>	<u>100.0%</u>	<u>\$119,612</u>	<u>100.0%</u>	<u>(2.1)%</u>

(1) Other ancillary club revenue primarily consists of Small Group Training, Sports Clubs for Kids, and racquet sports.

(2) Fees and other revenue primarily consist of rental income, marketing revenue and management fees.

Revenue decreased 2.1% in the three months ended September 30, 2013 compared to the same period in the prior year, as a result of decreases in both membership revenue and ancillary club revenue. The three months ended September 30, 2012 included a benefit from an acceleration of in-club advertising revenue which added approximately \$1.2 million to fees and other revenue.

For the three months ended September 30, 2013 compared to the three months ended September 30, 2012, revenue decreased \$3.5 million at our clubs opened or acquired prior to September 30, 2011 and decreased \$1.1 million with respect to the four clubs that were closed subsequent to June 30, 2012 (during the first and third quarters of 2013) and one club that remains temporarily closed due to damages sustained from Hurricane Sandy. These decreases were partially offset by a \$2.0 million increase in revenue from our clubs that were opened or acquired subsequent to September 30, 2011.

Table of Contents

Membership dues revenue decreased \$1.4 million, or 1.6%, in the three months ended September 30, 2013 compared to the same period in the prior year due primarily to a decline in memberships.

Joining fees revenue increased \$622,000, or 20.6%, in the three months ended September 30, 2013 compared to the same period in the prior year. The increase in joining fees was, in part, due to the effect of the lower estimated average membership life of 23 months for unrestricted members during the three months ended September 30, 2013 compared to a higher estimated average membership life of 28 months during the three months ended September 30, 2012. The lower amortizable life in the current year period resulted in higher joining fees revenue recognition as joining fees were amortized over a shorter estimated average membership life.

Personal training revenue increased \$779,000, or 5.0%, in the three months ended September 30, 2013 compared to the same period in the prior year driven by the success of our personal training membership product which was launched in June 2011 with single session membership product offerings and further expanded in 2012 and 2013 with multi-session personal training membership products.

Other ancillary club revenue decreased \$1.7 million, or 21.3%, in the three months ended September 30, 2013 compared to the same period in the prior year driven primarily by a decline in revenue from our Sports Clubs for Kids programs and Small Group Training classes.

Comparable club revenue decreased 1.7% in the three months ended September 30, 2013 as compared to the prior year. Memberships at our comparable clubs were down 3.0% which was partially offset by a 1.1% increase in the price of our dues and fees and a 0.2% increase in the combined effect of ancillary club revenue, initiation fees and other revenue.

Operating expenses (in thousands) were comprised of the following for the periods indicated:

	Three Months Ended September 30,		% Variance
	2013	2012	
Payroll and related	\$ 43,433	\$ 43,654	(0.5)%
Club operating	45,300	46,270	(2.1)%
General and administrative	7,245	5,641	28.4%
Depreciation and amortization	12,549	12,148	3.3%
Insurance recovery related to damaged property	(694)	—	N/A%
Impairment of fixed assets	439	239	83.7%
Operating expenses	<u>\$108,272</u>	<u>\$107,952</u>	0.3%

Operating expenses for the three months ended September 30, 2013 increased \$320,000, or 0.3%, compared to the three months ended September 30, 2012. The total months of club operation was relatively flat for the three months ended September 30, 2013 at 479 months compared to 480 months in the prior year. Excluding the \$694,000 of insurance proceeds received during the three months ended September 30, 2013 primarily in connection with property damaged by Hurricane Sandy, operating expenses increased \$1.0 million, or 0.9% due primarily to the following factors:

Payroll and related . Payroll and related expenses for the three months ended September 30, 2013 was relatively flat to the three months ended September 30, 2012. As a percentage of total revenue, payroll and related expenses increased to 37.1% in the three months ended September 30, 2013 from 36.5% in the three months ended September 30, 2012.

Club operating . Club operating expenses decreased \$970,000, or 2.1%, in the three months ended September 30, 2013 compared to the three months ended September 30, 2012. This decrease was principally attributable to the following:

- Electric utilities expense decreased \$350,000 in the three months ended September 30, 2013 compared to the same period in the prior year primarily as a result of the milder weather and therefore lower electricity consumption.
- Repairs and maintenance expense decreased \$390,000 in the three months ended September 30, 2013 compared to the same period in the prior year due to a decline in expenses for repair work on heating, ventilation and air conditioning systems at our clubs.

Table of Contents

As a percentage of total revenue, club operating expenses in the three months ended September 30, 2013 was flat to the prior year at 38.7%.

General and administrative . General and administrative expenses increased \$1.6 million, or 28.4%, in the three months ended September 30, 2013 compared to the same period last year. This was primarily due to a \$691,000 increase in insurance expense, due in part to favorable loss reserve adjustments in the prior year, as well as a \$514,000 increase in consulting and computer maintenance expenses related to the implementation of our new club operating system.

Depreciation and amortization . In the three months ended September 30, 2013 compared to the same period last year, depreciation and amortization expense increased by \$401,000, or 3.3%, due primarily to the effect of additions to our depreciable asset base from the recent club acquisitions of fixed assets and intangible assets earlier in 2013 as well as capitalized software related costs in connection with the implementation of our new club operating system.

Impairment of fixed assets. For the three months ended September 30, 2013, we recorded an impairment loss of \$439,000 on fixed assets at one underperforming club. The impairment loss is included as a component of operating expenses in a separate line on the condensed consolidated statements of income. During the three months ended September 30, 2012, we recorded an impairment loss of \$239,000 on fixed assets at an underperforming club.

Interest expense

Interest expense decreased \$1.0 million, or 15.6%, in the three months ended September 30, 2013 compared to the same period last year. Interest expense in the three months ended September 30, 2012 included financing related fees of \$1.4 million paid in connection with the August 22, 2012 debt repricing which reduced interest rates on our term loan facility by 125 basis points.

Provision for Corporate Income Taxes

We recorded a provision for corporate income taxes of \$1.3 million and \$1.6 million for the three months ended September 30, 2013 and 2012, respectively, reflecting an effective tax rate of 33% and 34%, respectively. Our 2013 and 2012 forecasted annual effective tax rates of 38% and 39% at September 2013 and 2012, respectively, were favorably impacted by approximately 5% in each period due to tax benefits derived from the captive insurance arrangement. Our provision for the three months ended September 30, 2012 included a discrete tax benefit of \$435,000 related to the loss on extinguishment of debt recorded in connection with the August 2012 debt repricing and voluntary prepayment of \$15.0 million on our term loan facility and a discrete tax benefit of \$182,000 that primarily related to the adjustment of estimated jurisdictional tax rates in effect in 2012.

Revenue (in thousands) was comprised of the following for the periods indicated:

	Nine Months Ended September 30,				
	2013		2012		% Variance
	Revenue	% Revenue	Revenue	% Revenue	
Membership dues	\$270,875	76.0%	\$276,868	75.9%	(2.2)%
Joining fees	11,284	3.2%	8,266	2.3%	36.5%

Other ancillary club revenue (1)	19,962	5.6%	23,900	6.6%	(16.5)%
Ancillary club revenue	70,409	19.8%	74,769	20.5%	(5.8)%
Fees and other revenue (2)	3,750	1.0%	4,862	1.3%	(22.9)%
Total revenue	<u>\$356,318</u>	<u>100.0%</u>	<u>\$364,765</u>	<u>100.0%</u>	(2.3)%

(1) Other ancillary club revenue primarily consists of Small Group Training, Sports Clubs for Kids, and racquet sports.

(2) Fees and other revenue primarily consist of rental income, marketing revenue and management fees.

Table of Contents

Revenue decreased 2.3% in the nine months ended September 30, 2013 compared to the same period in the prior year, as a result of decreases in both membership revenue and ancillary club revenue. The nine months ended September 30, 2012 included a benefit from an acceleration of in-club advertising revenue which added approximately \$1.2 million to fees and other revenue.

For the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012, revenue decreased \$8.5 million at our clubs opened or acquired prior to September 30, 2011 and decreased \$2.8 million with respect to the four clubs that were closed subsequent to December 31, 2011 (during the first and third quarter of 2013) and one club that remains temporarily closed due to damages sustained from Hurricane Sandy. These decreases were partially offset by a \$3.0 million increase in revenue from our clubs that were opened or acquired subsequent to September 30, 2011.

Membership dues revenue decreased \$6.0 million, or 2.2%, in the nine months ended September 30, 2013 compared to the same period in the prior year due primarily to a decline in memberships.

Joining fees revenue increased \$3.0 million, or 36.5%, in the nine months ended September 30, 2013 compared to the same period in the prior year. The increase in joining fees was, in part, due to the effect of the lower estimated average membership life of 25 months, 24 months and 23 months for unrestricted members during the three month periods ended March 31, 2013, June 30, 2013, and September 30, 2013, respectively, compared to 28 months during the nine months ended September 30, 2012. The lower amortizable life in the current year period resulted in higher joining fees revenue recognition as joining fees were amortized over a shorter estimated average membership life.

Personal training revenue decreased 0.8% in the nine months ended September 30, 2013 compared to the same period in the prior year while other ancillary club revenue decreased 16.5% in the nine months ended September 30, 2013 compared to the same period in the prior year driven primarily by a decline in revenue from our Sports Clubs for Kids programs and Small Group Training classes.

Comparable club revenue decreased 1.9% for the nine months ended September 30, 2013 as compared to the prior year period. Memberships at our comparable clubs were down 2.8% and the combined effect of ancillary club revenue, joining fees and other revenue decreased 0.2%. These decreases were partially offset by a 1.1% increase in the price of our dues and fees.

Operating expenses (in thousands) were comprised of the following for the periods indicated:

	Nine Months Ended September 30,		% Variance
	2013	2012	
Payroll and related	\$131,986	\$136,293	(3.2)%
Club operating	133,616	136,012	(1.8)%
General and administrative	20,985	17,709	18.5%
Depreciation and amortization	37,108	37,427	(0.9)%
Insurance recovery related to damaged property	(3,194)	—	N/A%
Impairment of fixed assets	567	239	137.2%
Operating expenses	<u>\$321,068</u>	<u>\$327,680</u>	(2.0)%

Operating expenses for the nine months ended September 30, 2013 decreased \$6.6 million, or 2.0%, compared to the nine months ended September 30, 2012. The total months of club operation decreased 1.3% for the nine months ended September 30, 2013 to 1,433 months compared to 1,452 months in the prior year. Excluding the \$3.2 million of insurance proceeds received during the nine months ended September 30, 2013 primarily in connection with property damaged by Hurricane Sandy, operating expenses decreased \$3.4 million or 1.0% due primarily to the following factors:

Payroll and related. Payroll and related expenses decreased \$4.3 million, or 3.2%, in the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. The decrease was due to decreases in personal training payroll, decreases in commissions and bonuses, and decreases in management incentive bonuses. As a percentage of total revenue, payroll and related expenses was relatively flat at 37.0% in the nine months ended September 30, 2013 compared to 37.3% in the nine months ended September 30, 2012.

Table of Contents

Club operating . Club operating expenses decreased \$2.4 million, or 1.8%, in the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. This decrease was principally attributable to the following:

- Rent and occupancy expenses decreased \$868,000 in the nine months ended September 30, 2013 compared to the same period in the prior year. This decrease included a \$2.2 million decrease related to four of our clubs that closed after December 31, 2011 and included the unwinding of deferred rents related to these club closures. In addition, the decrease includes one club that remains closed as a result of damages sustained from Hurricane Sandy. These decreases were partially offset by a \$935,000 increase in rent and occupancy costs at our clubs that opened prior to December 31, 2011, net of a \$254,000 decrease related to the reduction of rental space at one location.
- Electric utilities expense decreased \$1.2 million in the nine months ended September 30, 2013 compared to the same period in the prior year primarily due to lower electricity consumption as a result of the milder weather and to a lesser extent favorable electricity rates resulting from changes in our electricity suppliers.

As a percentage of total revenue, club operating expenses was relatively flat to the prior year at 37.5% in the nine months ended September 30, 2013 compared to 37.3% in the nine months ended September 30, 2012.

General and administrative . General and administrative expenses increased \$3.3 million, or 18.5%, in the nine months ended compared to the same period in 2012. This increase was primarily due to a \$1.7 million increase in insurance expense, due in part to favorable loss reserve adjustments in the prior year, as well as a \$717,000 increase in consulting and computer maintenance expenses related to the implementation of the new club operating system. General and administrative expenses in the nine months ended September 30, 2013 also includes \$308,000 of fees related to our club acquisitions in Manhattan and Boston during the first and second quarters of 2013.

As a percentage of total revenue, general and administrative expenses increased to 5.9% in the nine months ended September 30, 2013 from 4.9% in the nine months ended September 30, 2012.

Depreciation and amortization . In the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012, depreciation and amortization expense decreased primarily due to a decline in our depreciable fixed asset base. Contributing to this decline was our limited number of club openings over the past three years. Modest decreases in depreciation expense were offset by an increase in depreciation expense of \$331,000 at a single club where we reduced rental space for the location.

Impairment of fixed assets. For the nine months ended September 30, 2013, the Company recorded an impairment loss of \$567,000 on fixed assets related to two underperforming clubs. The impairment loss is included as a component of operating expenses in a separate line on the condensed consolidated statements of income. During the nine months ended September 30, 2012, we recorded an impairment loss of \$239,000 on fixed assets at one underperforming club.

Interest expense

Interest expense decreased \$1.7 million, or 9.5%, in the nine months ended September 30, 2013 compared to the same period last year. Interest expense in the nine months ended September 30, 2012 included financing related fees of \$1.4 million paid in connection with the August 22, 2012 debt repricing which reduced interest rates on our term loan facility by 125 basis points.

Provision for Corporate Income Taxes

We recorded a provision for corporate income taxes of \$7.8 million and \$7.5 million for the nine months ended September 30, 2013 and 2012, respectively, reflecting an effective tax rate of 37% and 38%, respectively. Our 2013 and 2012 forecasted annual effective tax rates of 38% and 39% at September 2013 and September 2012, respectively, were favorably impacted by approximately 5% in each period due to tax benefits derived from the captive insurance arrangement. Our provision for the nine months ended September 30, 2012 included a discrete tax benefit of \$225,000 related to the loss on extinguishment of debt recorded in connection with the August 2012 debt repricing and adjustments to prior year estimated jurisdictional tax rates.

Liquidity and Capital Resources

Historically, we have satisfied our liquidity needs through cash generated from operations and borrowing arrangements. Principal liquidity needs have included the acquisition and development of new clubs, debt service requirements, special dividend payments, and other capital expenditures necessary to upgrade, expand and renovate existing clubs. We believe that we can satisfy our debt obligations and capital expenditure requirements primarily with cash on hand, cash flow from operations and our borrowing arrangements for at least the next 12 months.

Table of Contents

Operating Activities. Net cash provided by operating activities for the nine months ended September 30, 2013 increased \$6.5 million compared to the nine months ended September 30, 2012. This increase was driven by a decrease in cash paid for interest of \$2.9 million and cash flows resulting from the timing of certain payments and collections made associated with our accounts payable, accrued expenses, accounts receivable and deferred membership costs. The decrease in accounts receivable was primarily due to a change in our collection policy effective January 1, 2013, related mainly to personal training session sales.

Investing Activities. Net cash used in investing activities increased \$7.1 million in the nine months ended September 30, 2013 compared to the nine months ended September 30, 2012. Investing activities in the nine months ended September 30, 2013 and 2012 consisted of capital expenditures for expanding and remodeling existing clubs, and the purchase of new fitness equipment. Investing activities in the nine months ended September 30, 2013 also consisted of \$2.9 million of net cash paid for the acquisition of clubs. The increases in cash used in investing activities related for capital expenditures and acquisitions during the nine month ended September 30, 2013 were partially offset by insurance proceeds of \$3.2 million primarily in connection with insurance recoveries related to property damages from Hurricane Sandy.

For the year ending December 31, 2013, we currently plan to invest \$34.0 million to \$37.0 million in capital expenditures compared to \$22.5 million of capital expenditures in 2012. This amount includes approximately \$10.0 million to \$12.0 million related to potential 2013 and 2014 club openings, inclusive of amounts for our acquisition of the Fitcorp chain in Boston and planned renovations at these clubs as well as the single club acquired in Manhattan. The total capital expenditures also includes approximately \$17.0 million to \$18.0 million to continue enhancing or upgrading existing clubs and approximately \$4.5 million to \$5.0 million principally related to major renovations at clubs with recent lease renewals and to upgrade our in-club entertainment system network. We also expect to invest approximately \$2.5 million to \$3.5 million to enhance our management information and communication systems. We expect these capital expenditures to be funded by cash flow provided by operations and available cash on hand.

Financing Activities. Net cash provided by financing activities for the nine months ended September 30, 2013 was \$82,000 compared to net cash used in financing activities of \$36.4 million for the nine months ended September 30, 2012. In the nine months ended September 30, 2013, we were not required to make the regularly scheduled quarterly principal payments pursuant to our term loan facility as a result of a voluntary prepayment made in August 2012 of \$15.0 million. Regularly scheduled required payments will resume on December 31, 2013. In addition, the second amendment to our credit facility in November 2012 waived the requirement to pay the excess cash flow payment that was due on March 31, 2013.

In the nine months ended September 30, 2012, we made principal payments of \$36.0 million on the term loan facility, of which \$15.0 million was related to the voluntary prepayment made in August 2012. In connection with the repricing Amendment in August 2012, we paid related financing costs of \$2.7 million. These payments were partially offset by \$2.3 million of proceeds from the exercise of stock options.

As of September 30, 2013, we had \$68.0 million of cash and cash equivalents. Financial instruments that potentially subject us to concentrations of credit risk consist of cash and cash equivalents and the interest rate swap. Although we deposit our cash with more than one financial institution, as of September 30, 2013 approximately \$47.8 million was held at one financial institution. We have not experienced any losses on cash and cash equivalent accounts to date and we do not believe that, based on the credit ratings of these financial institutions, we are exposed to any significant credit risk related to cash at this time.

As of September 30, 2013, our total gross consolidated debt was \$315.7 million. This substantial amount of debt could have significant consequences, including the following:

- making it more difficult to satisfy our obligations;
- increasing our vulnerability to general adverse economic conditions;
- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions of new clubs and other general corporate requirements;
- requiring cash flow from operations for the payment of interest on our credit facility and the payment of principal pursuant to excess cash flow requirements and reducing our ability to use our cash flow to fund working capital, capital expenditures, acquisitions of new clubs and general corporate requirements; and
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate.

Table of Contents

These limitations and consequences may place us at a competitive disadvantage to other less-leveraged competitors.

2011 Senior Credit Facility

On May 11, 2011, TSI, LLC entered into a \$350.0 million senior secured credit facility (“2011 Senior Credit Facility”). The 2011 Senior Credit Facility consisted of a \$300.0 million term loan facility (“2011 Term Loan Facility”) and a \$50.0 million revolving loan facility (“2011 Revolving Loan Facility”). The 2011 Term Loan Facility was issued at an original issue discount (“OID”) of 1.0% or \$3.0 million. The OID was recorded as a contra-liability to long-term debt on the accompanying condensed consolidated balance sheet and is being amortized as interest expense using the effective interest method. On May 11, 2011, debt issuance costs related to the 2011 Senior Credit Facility were \$8.1 million, of which \$7.3 million are being amortized as interest expense, and are included in other assets in the accompanying condensed consolidated balance sheets. The proceeds from the 2011 Term Loan Facility were used to pay off amounts outstanding under our previously outstanding long-term debt facility, to pay the redemption price for all of our outstanding 11% senior discount notes due in 2014, and to pay related fees and expenses. None of the revolving facility was drawn upon as of the closing date on May 11, 2011, but loans under the 2011 Revolving Loan Facility may be drawn from time to time pursuant to the terms of the 2011 Senior Credit Facility. The 2011 Term Loan Facility matures on May 11, 2018, and the 2011 Revolving Loan Facility matures on May 11, 2016. The borrowings under the 2011 Senior Credit Facility are guaranteed and secured by assets and pledges of capital stock by the Company, TSI, LLC and the wholly-owned domestic subsidiaries of TSI, LLC.

On August 22, 2012, TSI, LLC entered into a First Amendment (the “First Amendment”) to the 2011 Senior Credit Facility. The First Amendment reduced the then-current interest rates on the 2011 Term Loan Facility by 125 basis points by reducing the applicable margin on the initial term loans from 4.50% to 3.50% for base rate loans and from 5.50% to 4.50% for Eurodollar loans and reduced the interest rate floor on the initial term loans from 2.50% to 2.25% for base rate loans and from 1.50% to 1.25% for Eurodollar loans. The First Amendment also converted the existing voluntary prepayment penalty provision from a “101 hard call” provision (which requires the payment of a 1.00% fee on the amount of any term loans that are voluntarily prepaid), originally scheduled to end in May 2013, to a “101 soft call” provision (which requires the payment of a 1.00% fee on the amount of any term loans repaid in connection with a refinancing or repricing transaction) that ended in August 2013, and was subsequently extended to November 14, 2013 by a second amendment on November 14, 2012. All other principal provisions, including maturity and covenants under our existing 2011 Senior Credit Facility remained unchanged in all material respects. The First Amendment was subject to the consent of term loan lenders. Non-consenting term loan lenders with term loan principal outstanding totaling \$13.8 million were replaced with replacement term loan lenders in order to execute the First Amendment. In connection with the pay off of non-consenting term loan lenders, during the three months ended September 30, 2012, we recorded a loss on extinguishment of debt of \$464,000 consisting of the write-offs of the related portions of unamortized debt issuance costs and OID of \$260,000 and \$204,000, respectively. In addition, we recorded additional debt discount of \$2.7 million related to a 1.00% amendment fee paid to consenting lenders and recognized additional interest expense totaling \$1.4 million related primarily to bank and legal related fees paid to third parties to execute the First Amendment.

Subsequent to the effective date of the First Amendment, on August 28, 2012, we made a voluntary prepayment of \$15.0 million on the 2011 Term Loan Facility. In connection with this voluntary prepayment, during the three months ended September 30, 2012, we recorded loss on extinguishment of debt of \$546,000, consisting of the write-offs of the related portions of unamortized debt issuance costs and debt discount of \$269,000 and \$277,000, respectively.

On November 14, 2012, TSI, LLC entered into a Second Amendment (the “Second Amendment”) to the 2011 Senior Credit Facility. Under the Second Amendment, TSI, LLC borrowed an additional \$60.0 million incremental term loan issued at an OID of 0.50% or \$300,000, bringing the total outstanding borrowings under the 2011 Term Loan Facility to \$315.7 million. The \$300,000 OID was recorded as a contra-liability to long-term debt on the accompanying condensed consolidated balance sheet and is being amortized as interest expense using the effective interest method. The new borrowings were used, together with cash on hand, to pay a special cash dividend to our stockholders, including an equivalent cash bonus payment to certain option holders, on December 11, 2012. In addition, the Second Amendment provides for a waiver of any prepayment required to be paid using our excess cash flow for the period ended December 31, 2012, amends the restricted payments covenant to permit the payment of the dividend and cash bonus payments and permits adjustments to our calculation of consolidated EBITDA with respect to the cash bonus payment and with respect to fees and expenses associated with certain permitted transactions. In connection with the execution of the Second Amendment, during the three months ended December 31, 2012, we recorded additional debt discount of \$639,000 related to a 0.25% amendment fee, debt issuance costs of \$125,000 and additional interest expense totaling \$1.6 million related primarily to bank, arrangement and legal fees paid to third parties.

Table of Contents

As of September 30, 2013, the 2011 Term Loan Facility has a gross principal balance of \$315.7 million and a balance of \$311.1 million, net of unamortized debt discount of \$4.7 million which is comprised of the original issue discounts from the original debt issuance date of May 11, 2011 and the additional debt discounts recorded in connection with the First and Second Amendments. The unamortized debt discount balance is recorded as a contra-liability to long-term debt on the accompanying condensed consolidated balance sheet and is being amortized as interest expense using the effective interest method. As of September 30, 2013, the unamortized balance of debt issuance costs of \$4.4 million is being amortized as interest expense, and is included in other assets in the accompanying condensed consolidated balance sheets.

As of September 30, 2013, there were no outstanding 2011 Revolving Loan Facility borrowings and outstanding letters of credit issued totaled \$5.2 million. The unutilized portion of the 2011 Revolving Loan Facility as of September 30, 2013 was \$44.8 million.

Borrowings under the 2011 Term Loan Facility, at TSI, LLC's option, bear interest at either the administrative agent's base rate plus 3.5% or its Eurodollar rate plus 4.5%, each as defined in the 2011 Senior Credit Facility, as amended. The Eurodollar rate has a floor of 1.25% and the base rate has a floor of 2.25% with respect to the outstanding term loans. As of September 30, 2013, the interest rate was 5.75%. TSI, LLC is required to pay 0.25% of principal per quarter, in respect of such loans. If, as of the last day of any fiscal quarter of TSI Holdings, the total leverage ratio, as defined, is greater than 2.75:1.00, TSI, LLC is required to pay 1.25% of principal. Pursuant to the terms of the 2011 Senior Credit Facility, as amended, these regularly scheduled required quarterly principal payments may be reduced by voluntary prepayments. As a result of the \$15.0 million voluntary prepayment on August 28, 2012 and maintaining a leverage ratio greater than 2.75:1.00, we were not required to pay the regularly scheduled quarterly principal payments for the period beginning September 30, 2012 through September 30, 2013, with regularly scheduled required payments resuming on December 31, 2013 with an estimated principal payment of approximately \$4.5 million to be paid on December 31, 2013. As of December 31, 2012, March 31, 2013, June 30, 2013 and September 30, 2013, TSI, LLC had a total leverage ratio of 3.00:1.00, 3.04:1.00, 2.98:1.00 and 3.08:1.00, respectively. As of September 30, 2013, TSI, LLC had made a total of \$44.3 million in principal payments on the 2011 Term Loan Facility.

The terms of the 2011 Senior Credit Facility, as amended, provide for financial covenants which require TSI, LLC to maintain a total leverage ratio, as defined, of no greater than 4.50:1.00 effective March 31, 2012 and thereafter; an interest expense coverage ratio, as defined, of no less than 2.00:1.00; and a covenant that limits capital expenditures to \$40.0 million for the four quarters ending in any quarter during which the total leverage ratio is greater than 3.00:1.00 and to \$50.0 million for the four quarters ending in any quarter during which the ratio is less than or equal to 3.00:1.00 but greater than 2.50:1.00. This covenant does not limit capital expenditures if the ratio is less than or equal to 2.50:1.00. TSI, LLC was in compliance with these covenants as of September 30, 2013 with a total leverage ratio of 3.08:1.00 and an interest expense coverage ratio of 4.51:1.00. For the twelve month period ending September 30, 2013, TSI, LLC had capital expenditures totaling \$29.9 million.

TSI, LLC may prepay the 2011 Term Loan Facility and 2011 Revolving Loan Facility without premium or penalty in accordance with the 2011 Senior Credit Facility, as amended, except that a prepayment premium of 1.0% is payable for any prepayments made prior to November 14, 2013 in connection with a repricing transaction that reduces the effective yield of the initial term loans, otherwise the 1.0% prepayment premium would not be applicable. Mandatory prepayments are required in certain circumstances relating to cash flow in excess of certain expenditures, asset sales, insurance recovery and incurrence of certain other debt. The 2011 Senior Credit Facility contains provisions that require excess cash flow payments, as defined, to be applied against outstanding 2011 Term Loan Facility balances. The excess cash flow is calculated as of December 31 and any required principal payment for excess cash flow shall be paid the following March 31. The applicable excess cash flow repayment percentage is applied to the excess cash flow when determining the excess cash flow payment. Earnings, changes in working capital and capital expenditure levels all impact the determination of any excess cash flows. The applicable excess cash flow repayment percentage is 75% when the total leverage ratio, as defined in the 2011 Senior Credit Facility exceeds 3.00:1.00; 50% when the total leverage ratio is greater than 2.50:1.00 but less than or equal to 3.00:1.00; 25% when the total leverage ratio is greater than 2.00:1.00 but less than or equal to 2.50:1.00 and 0% when the total leverage ratio is less than or equal to 2.00:1.00. The calculation performed as of December 31, 2012 resulted in a total leverage ratio of 3.00:1.00. However, pursuant to the terms of the Second Amendment, a waiver was provided on the prepayment required to be paid using our excess cash flow for the year ended December 31, 2012. Based on our current forecasted expectations of earnings, changes in working capital, capital expenditures and debt levels, which are all subject to future changes, we currently estimate that the excess cash flow calculation as of December 31, 2013 would result in approximately \$22.5 million payable on March 31, 2014.

Table of Contents

On October 22, 2013, the Company announced that it was seeking to refinance the 2011 Senior Credit Facility with borrowings under a new credit facility and that, contingent upon the completion of such refinancing, that the Board of Directors may initiate a quarterly dividend program. Refer to the Form 8-K filed on October 22, 2013 for more information.

Financial Instruments

In our normal operations, we are exposed to market risks relating to fluctuations in interest rates. In order to minimize the possible negative impact of such fluctuations on our cash flows we may enter into derivative financial instruments (“derivatives”), such as interest-rate swaps. Any instruments are not entered into for trading purposes and we only use commonly traded instruments. Currently, we have used derivatives solely relating to the variability of cash flows from interest rate fluctuations.

Effective July 13, 2011, we entered into an interest rate swap arrangement which effectively converted \$150.0 million of our variable-rate debt based on a one-month Eurodollar rate to a fixed rate of 2.0%, or a total fixed rate of 7.5%, on this \$150.0 million when including the applicable 5.50% margin. In August 2012, we amended the terms of the 2011 Senior Credit Facility to, among other things, reduce the applicable margin on Eurodollar rate loans from 5.50% to 4.50% and reduce the interest rate floor on Eurodollar rate loans from 1.50% to 1.25%. In conjunction with the First Amendment to the 2011 Senior Credit Facility in August 2012, the interest rate swap arrangement was amended to reduce the one-month Eurodollar fixed rate from 2.0% to 1.8%, or a total fixed rate of 6.3% when including the applicable 4.50% margin on Eurodollar rate loans. On November 14, 2012, we further amended the terms of the 2011 Senior Credit Facility to, among other things, allow for the borrowing of a \$60.0 million incremental term loan. In connection with the Second Amendment to the 2011 Credit Facility, we further amended the interest rate swap to increase the notional amount to \$160.0 million and extend the maturity of the swap from July 13, 2014 to May 13, 2015. In addition, the one-month Eurodollar fixed rate was lowered from 1.8% to 1.7%, or a total of 6.2% when including the applicable 4.50% margin on Eurodollar rate loans. As of the incremental term loan borrowing date, the interest rate swap arrangement covered \$160.0 million of our total variable rate debt of \$315.7 million. As permitted by FASB Accounting Standards Codification (“ASC”) 815, Derivatives and Hedging, we have designated this swap as a cash flow hedge, the effects of which have been reflected in our condensed consolidated financial statements as of and for the three and nine months ended September 30, 2013 and 2012. The objective of this hedge is to manage the variability of cash flows in the interest payments related to the portion of the variable-rate debt designated as being hedged.

When a derivative is executed and hedge accounting is appropriate, it is designated as a cash flow hedge at inception with re-designation being permitted under ASC 815, Derivatives and Hedging. Interest rate swaps are designated as cash flow hedges for accounting purposes since they are being used to transform variable interest rate exposure to fixed interest rate exposure on a recognized liability (debt). On an ongoing basis, we perform a quarterly assessment of the hedge effectiveness of the hedge relationship and measure and recognize any hedge ineffectiveness in the condensed consolidated statements of income. For the three and nine months ended September 30, 2013, hedge ineffectiveness was evaluated using the hypothetical derivative method, with the ineffective portion of the hedge, if any, being reported in our condensed consolidated statements of income. There was no hedge ineffectiveness during the three and nine months ended September 30, 2013. The amount related to hedge ineffectiveness for the three and nine months ended September 30, 2012 was de minimis.

Counterparties to our derivatives are major banking institutions with credit ratings of investment grade or better and no collateral is required, and there are no significant risk concentrations. We believe the risk of incurring losses on derivative contracts related to credit risk is unlikely.

Contractual Obligations

Our aggregate long-term debt and operating lease obligations as of September 30, 2013 were as follows:

Contractual Obligations	Payments Due by Period (in thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Long-term debt (1)	\$ 315,743	\$ 40,500	\$ 17,777	\$257,466	\$ —
Interest payments on long-term debt (2)	73,125	18,077	31,362	23,686	—
Operating lease obligations (3)	655,823	88,358	167,958	137,412	262,095
Total contractual obligations	<u>\$1,044,691</u>	<u>\$146,935</u>	<u>\$217,097</u>	<u>\$418,564</u>	<u>\$262,095</u>

Table of Contents

Notes:

- (1) As a result of the \$15.0 million voluntary prepayment on August 28, 2012 and maintaining a leverage ratio greater than 2.75:1.00, we were not required to pay the regularly scheduled quarterly principal payments for the period beginning September 30, 2012 through September 30, 2013, with regularly scheduled required payments resuming on December 31, 2013.
- (2) Based on interest rates on the 2011 Term Loan Facility and the interest rate swap agreement as of September 30, 2013.
- (3) Operating lease obligations include base rent only. Certain leases provide for additional rent based on real estate taxes, common area maintenance and defined amounts based on our operating results.

The following long-term liabilities included on the condensed consolidated balance sheet are excluded from the table above: income taxes (including uncertain tax positions or benefits), insurance accruals and other accruals. We are unable to estimate the timing of payments for these items.

Working Capital

In recent years, we have typically operated with a working capital deficit. We had working capital deficit of \$3.9 million at September 30, 2013, as compared with a working capital deficit of \$7.8 million at December 31, 2012. Major components of our working capital deficit on the current liability side are deferred revenues, accrued expenses (including, among others, accrued construction in progress and equipment, payroll and occupancy costs) and the current portion of long-term debt. These current liabilities more than offset the main current assets, which consist of cash and cash equivalents, accounts receivable, prepaid expenses and other current assets, and the current portion of deferred tax assets. Payments underlying the current liability for deferred revenue might not be held as cash and cash equivalents, but may be used for our business needs, including financing and investing commitments, which contributes to the working capital deficit. The current portion of deferred revenue liability relates to dues and services paid-in-full in advance and joining fees paid at the time of enrollment and totaled \$36.5 million and \$37.1 million at September 30, 2013 and December 31, 2012, respectively. Joining fees received are deferred and amortized over the estimated average membership life of a club member. Prepaid dues are generally realized over a period of up to twelve months, while fees for prepaid services normally are realized over a period of one to nine months. In periods when we increase the number of clubs open or increase membership, this consequently increases the level of payments received in advance, and we would expect to see increased deferred revenue balances. By contrast, any decrease in demand for our services, a decline in members or reductions in joining fees collected would have the effect of reducing deferred revenue balances, which would likely require us to rely more heavily on other sources of funding. In either case, a significant portion of the deferred revenue is not expected to constitute a liability that must be funded with cash. At the time a member joins our club, we incur enrollment costs, a portion of which are deferred over the estimated average membership life. These costs are recorded as a long-term asset and as such do not offset working capital deficits. Any working capital deficits in future periods, as in the past, are expected to be funded using cash on hand, cash flows from operations and borrowings under our 2011 Senior Credit Facility, as amended. We believe that these sources will be sufficient to cover such future deficits.

Recent Changes in or Recently Issued Accounting Pronouncements

See Note 2 — Recent Accounting Pronouncements to the condensed consolidated financial statements in this Form 10-Q.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, statements regarding future financial results and performance, potential sales revenue, legal contingencies and tax benefits, and the existence of adverse litigation and other risks, uncertainties and factors set forth under Item 1A., entitled “Risk Factors”, in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012 and in our other reports and documents filed with the SEC. These statements are subject to various risks and uncertainties, many of which are outside our control, including, among others, the ability of the Company to successfully renegotiate a refinancing of its existing senior secured credit facility on acceptable terms, the actual declaration, amount, timing and payment of any dividend, the level of market demand for our services, economic conditions affecting the Company’s business, the geographic concentration of the Company’s clubs, competitive pressure, the ability to achieve reductions in operating costs and to continue to integrate acquisitions, environmental matters, any security and privacy breaches involving customer data, the levels and terms of the Company’s indebtedness, and other specific factors discussed herein and in other SEC filings by us (including our reports on Forms 10-K and 10-Q filed with the SEC). We believe that all forward-looking statements are based on reasonable assumptions

Table of Contents

when made; however, we caution that it is impossible to predict actual results or outcomes or the effects of risks, uncertainties or other factors on anticipated results or outcomes and that, accordingly, one should not place undue reliance on these statements. Forward-looking statements speak only as of the date when made and we undertake no obligation to update these statements in light of subsequent events or developments. Actual results may differ materially from anticipated results or outcomes discussed in any forward-looking statement.

Table of Contents

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

Our debt is impacted by fixed and variable rates so that we are exposed to market risks resulting from interest rate fluctuations. We regularly evaluate our exposure to these risks and take measures to mitigate these risks on our consolidated financial results. We do not participate in speculative derivative trading.

Borrowings for the 2011 Term Loan Facility are for one-month periods in the case of Eurodollar borrowings. Our exposure to market risk for changes in interest rates relates to interest expense on variable rate debt. As of September 30, 2013, we had \$315.7 million of outstanding borrowings under our 2011 Term Loan Facility. Of this variable rate debt, \$160.0 million is hedged to a fixed rate under an interest rate swap agreement. Changes in the fair value of the interest rate swap derivative instrument is recorded each period in accumulated other comprehensive income (loss). Based on the amount of our variable rate debt and our interest rate swap agreement as of September 30, 2013, a hypothetical 100 basis point interest increase would not have affected interest expense for the three months ended September 30, 2013, as the variable rate debt contains a Eurodollar floor of 1.25%.

For additional information concerning the terms of our 2011 Term Loan Facility, see Note 3 – Long-Term Debt to the condensed consolidated financial statements.

Item 4. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures: We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that the information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired controls.

As of September 30, 2013, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2013, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting: There were no changes in our internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. *Legal Proceedings.*

On or about March 1, 2005, in an action styled *Sarah Cruz, et al v. Town Sports International, d/b/a New York Sports Club*, plaintiffs commenced a purported class action against TSI, LLC in the Supreme Court, New York County, seeking unpaid wages and alleging that TSI, LLC violated various overtime provisions of the New York State Labor Law with respect to the payment of wages to certain trainers and assistant fitness managers. On or about June 18, 2007, the same plaintiffs commenced a second purported class action against TSI, LLC in the Supreme Court of the State of New York, New York County, seeking unpaid wages and alleging that TSI, LLC violated various wage payment and overtime provisions of the New York State Labor Law with respect to the payment of wages to all New York purported hourly employees. On September 17, 2010, TSI, LLC made motions to dismiss the class action allegations of both lawsuits for plaintiffs' failure to timely file motions to certify the class actions. The court granted the motions on January 29, 2013, dismissing the class action allegations in both lawsuits. On March 4, 2013, plaintiffs served notice of their intent to appeal that dismissal. The court has stayed the remaining, individual claims in each action pending resolution of the plaintiffs' appeal.

On September 22, 2009, in an action styled *Town Sports International, LLC v. Ajilon Solutions, a division of Ajilon Professional Staffing LLC* (Supreme Court of the State of New York, New York County, 602911-09), TSI, LLC brought an action in the Supreme Court of the State of New York, New York County, against Ajilon for, among other things, breach of contract seeking, among other things, money damages, in connection with Ajilon's failure to design and deliver to TSI, LLC a new sports club enterprise management system known as GIMS. Subsequently, on October 14, 2009, Ajilon brought a counterclaim against TSI, LLC alleging breach of contract, asserting, among other things, failure to pay outstanding invoices in the aggregate amount of approximately \$2.9 million. Following a jury trial, a jury verdict was rendered on January 28, 2013, that awarded TSI, LLC damages against Ajilon in the amount of approximately \$3.3 million, plus interest, and also awarded Ajilon damages against TSI, LLC in the amount of approximately \$214,000, plus interest. After the Court granted Ajilon's motion to set aside the part of the jury verdict that had rejected the bulk of Ajilon's counterclaim, the Court increased the award of damages against TSI, LLC from approximately \$214,000 to approximately \$2.9 million, plus interest. The result is a net amount owed to TSI, LLC in the amount of approximately \$400,000, plus interest. On April 8, 2013, TSI, LLC filed a notice of appeal, appealing the Court's decision to set aside the jury verdict, and on May 6, 2013, Ajilon filed its notice of appeal, appealing the verdict. The appeals were perfected and remain pending.

On February 7, 2007, in an action styled *White Plains Plaza Realty, LLC v. TSI, LLC et al.*, the landlord of one of TSI, LLC's former health and fitness clubs filed a lawsuit in state court against it and two of its health club subsidiaries alleging, among other things, breach of lease in connection with the decision to close the club located in a building owned by the plaintiff and leased to a subsidiary of TSI, LLC, and take additional space in the nearby facility leased by another subsidiary of TSI, LLC. The trial court granted the landlord damages against its tenant in the amount of approximately \$700,000, including interest and costs ("Initial Award"). TSI, LLC was held to be jointly liable with the tenant for the amount of approximately \$488,000, under a limited guarantee of the tenant's lease obligations. The landlord subsequently appealed the trial court's award of damages, and on December 21, 2010, the appellate court reversed, in part, the trial court's decision and ordered the case remanded to the trial court for an assessment of additional damages, of approximately \$750,000 plus interest and costs (the "Additional Award"). On February 7, 2011, the landlord moved for re-argument of the appellate court's decision, seeking additional damages plus attorneys' fees. On April 8, 2011, the appellate court denied the landlord's motion. On August 29, 2011, the Additional Award (amounting to approximately \$900,000), was entered against the tenant. TSI, LLC does not believe it is probable that TSI, LLC will be held liable to pay for any amount of the Additional Award. Separately, TSI, LLC is party to an agreement with a third-party developer, which by its terms provides indemnification for the full amount of any liability of any nature arising out of the lease described above, including attorneys' fees incurred to enforce the indemnity. In connection with the Initial Award (and in furtherance of the indemnification agreement), TSI, LLC and the developer have entered into an agreement pursuant to which the developer has agreed to pay the amount of the Initial Award in installments over time. The indemnification agreement also covers the Additional Award. The developer did not pay the amount of the Additional Award to the landlord, and on October 13, 2011 the landlord commenced a special proceeding in the Supreme Court of the State of New York, Westchester County, to collect the Additional Award directly from the developer. A motion to dismiss the special proceeding made by the developer was denied by the court on March 13, 2012. An appeal of that decision by the developer is pending. On March 14, 2013, the landlord moved for summary judgment on its claim to recover the Additional Award directly from the developer and on March 25, 2013, the developer cross-moved for summary judgment to dismiss the special proceeding. On May 2013, the court granted summary judgment to the landlord and denied the cross-motion for summary judgment of the developer. Judgment was entered against the developer on June 5, 2013 in the amount of \$1.0 million, plus interest. On June 13, 2013, the developer filed a notice of its intent to appeal the judgment.

Table of Contents

On or about October 4, 2012, in an action styled *James Labbe, et al. v. Town Sports International, LLC*, plaintiff commenced a purported class action in New York State court on behalf of personal trainers employed in New York State. Labbe is seeking unpaid wages and damages from TSI, LLC and alleges violations of various provisions of the New York State labor law with respect to payment of wages and TSI, LLC's notification and record-keeping obligations. On December 18, 2012, TSI, LLC filed a motion to stay the class action pending a decision on class certification in the Cruz case and to dismiss the Labbe action if the Cruz case is certified. On January 29, 2013, Labbe responded to the motion to stay and filed a cross-motion to consolidate the Labbe case with the Cruz case. On February 11, 2013, following the dismissal of the class claims in Cruz, Labbe withdrew the cross-motion to consolidate. Oral argument to stay the action until a decision is made on the appeal in the Cruz case was heard on April 10, 2013. While it is not possible to estimate the likelihood of an unfavorable outcome or a range of loss in the case of an unfavorable outcome to TSI, LLC at this time, TSI, LLC intends to contest this case vigorously.

In addition to the litigation discussed above, we are involved in various other lawsuits, claims and proceedings incidental to the ordinary course of business, including personal injury and employee relations claims. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources. The results of these other lawsuits, claims and proceedings cannot be predicted with certainty. While it is not feasible to predict the outcome of such proceedings, in the opinion of the Company, either the likelihood of loss is remote or any reasonably possible loss associated with the resolution of such proceedings is not expected to be material either individually or in the aggregate.

ITEM 1A. Risk Factors

There have not been any material changes to the information related to the ITEM 1A. "Risk Factors" disclosure in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Table of Contents

ITEM 3. *Defaults Upon Senior Securities*

None.

ITEM 4. *Mine Safety Disclosures*

Not applicable.

ITEM 5. *Other Information*

None.

ITEM 6. *Exhibits*

Required exhibits are listed in the Index to Exhibits and are incorporated herein by reference.

CERTIFICATION

I, Robert Giardina, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended September 30, 2013 of Town Sports International Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
